Drones machine gun

2019/07/27

Drones gun is the first ever portable equipment which can disable particular flying quadcopter within seconds. It has a look of machine gun and can jam all drones frequencies in the radius up to 800 meters. Apart from jamming operational frequencies it will fully disable the ability of the drone to record video or make photos. With the help of this portable quadcopter jammer you will have an opportunity to land absolutely any flying device. All you need to do is to point the gun to the drone and all the frequencies will be jammed immediately. The internal antennas was developed in the way that it doesn't affect the human so radiation from this device is similar to the radiation from two cell phones. The Drones Gun goes with two batteries which will allow you to use this device up to 6 hours continuously.

Jamming Frequencies:- 5,1-5,5 GHz - 5,5-5,9 GHz - Wi-Fi 2,4 GHz: 2400-2500 MHz - GPS L1: 1575 MHz - GPS L2: 1227 MHz - GPS L3: 1176,45 MHz
